

Safety/Catenary Rope for Antennas

Antenna Catenary Rope to act as an extra safety precaution on antennas.

The 800mm type (CATR800) is approved for use on the Vodafone network. The 1000mm type is more often used on larger antennas, i.e. on rectangular 'LCD TV Shaped' Antennas used inside football Stadiums.

Part Number	Opening (mm)	Length
CATR800	8.0	800
CATR1000	8.0	1000

Additional lengths are available on request.

Materials

- 4mm (marine grade) rope.
- 5mm x 50mm stainless steel carabiner hook (8mm opening).
